MOSCOW, March 15.—Fierce fighting in the Khar-  
kov area in which Russian  
units were forced to withdraw to a new defense line  
was reported today by the  
Soviet high command in a  
supplement to the midnight  
communiqué.

But while the Russians  
were forced to withdraw in  
the Kharkov area, they con-  
tinued to gain on the central  
front west and southwest of  
Vyazma, occupying several  
dozen localities, including  
the important district center  
and railroad station of  
Semilevo.

Germans Claim Occupation

The German high command  
claimed the complete reoccupation of Kharkov "after hard fighting that lasted many days." Picked S. S.  
shock troops, according to the Nazis,  
supported by waves of planes.

## Seek Senate Approval For Post-War Program

WASHINGTON, March 15.—As  
British Foreign Secretary Anthony  
Eden prepared to confer today for  
the first time with Secretary of  
State Cordell Hull, the Anglo-  
American talks were overshadowed in  
importance by the move to get  
Senate approval of U. S. participa-  
tion in a post-war collective security  
system.

The move by a bi-partisan group  
of four senators to introduce a reso-

## Gen. MacArthur Warns Australia Faces Invasion

By FRANK ROBERTSON  
C. N. S. Staff Correspondent

ALLIED HEADQUARTERS IN  
AUSTRALIA, March 15.—General  
Douglas MacArthur today repeated  
his warning that northern Australia  
is in danger of Japanese invasion.

Japanese strongholds within easy

striking distance of Darwin and the

northern territory are being rein-  
forced, he declared in a communiqué,

and big new airfields capable

of handling many hundreds of

Japanese war planes of all types are  
being constructed.

"Editor's Note: The Australian  
radio, according to CBS, reported that  
the enemy's plan, whatever it may be,  
is growing near to the operational stage . . . It is only prudent  
to assume that the idea behind  
this concentration may be offensive,  
and that new assaults against Allied  
territory may be pending."

While the new warning was inter-  
preted much the same as his initial  
statement, which advised that the enemy was in a "position  
of readiness" in a broad perimeter  
surrounding Australia, today's re-  
port came marked the first time that  
MacArthur had pined his fears of  
new Japanese conquest plans to a  
specific area.

Such an increase, it was pointed  
out, would make the canned goods  
program uniform with the point allotment  
announced this week for meat and  
eliminate considerable confusion.

The consumer would thus have

64 points a month to spend for  
canned foods and 64 points a month  
for meat, which will be rationed  
starting midnight March 28.

A forecast on the nation's food

supply for the next year will be

## JAP ATTACKS IN BURMA REPULSED

Heavy Fighting Is Reported  
Continuing In Rethedau-  
Area Of Burma

By KINGSBURY SMITH

NEW DELHI, March 15.—Heavy  
fighting which broke out over the  
week-end in the Rethedau area of  
Burma today ended after a number of  
Japanese attacks were repulsed, the British India  
command announced in an official com-  
munique.

Meanwhile American heavy and

medium bombers blasted the dock

area of Moumein and Gokteik viaduct.

Medium bombers carried out

a concentrated attack on the viaduct

and a number of direct hits

were reported.

Strongly reinforced Japanese  
troops launched a series of fierce

attacks on the British left flank in

the Rethedau area, 25 miles north

of Akyab on the Bay of Bengal

coast.

British positions were adjusted to

meet the situation, the communi-  
cate said.

The Japanese attacks were re-  
pulsed with heavy losses in men and

equipment, but fighting continues.

## Report Goering Is Now In Rome

By KINGSBURY SMITH  
C. N. S. Staff Correspondent

NEW YORK, March 15.—Reich  
Marshal Hermann Goering's current  
visit to Rome is aimed at overcom-  
ing the "indecision of Mussolini and  
his new cabinet and to force them to  
accept all German demands," the  
Russian Tass news agency said today  
in a dispatch reported by the O.W.I.

Goering had arrived in  
Rome on March 6 but had ordered  
his presence kept secret. He is  
charged with a personal mission  
from Hitler to Mussolini, Tass add-  
ed, and "will stay in Rome for a long time."

# Increased U.S. Aerial Activity

American Plane Action In  
Pacific Areas Is Being  
Speeded Up

## JAPANESE ALSO TRY REINFORCING

By JOSEPH A. BORS  
CL. N. S. Staff Correspondent

WASHINGTON, March 15.—Increased American aerial activity was reported throughout the Pacific today amid signs that the Japanese were reinforcing their forward positions possibly for offensive or defense purposes.

In the Australian area Gen. Douglas MacArthur's bombers pounded another Japanese convoy which was headed for the important northern New Guinea coast.

U. S. pilots from Guadalcanal attacked Japanese installations in the central and northern Solomons in the continuing aerial offensive designed to upset enemy plans to reinforce those important bases in the southern Pacific war zone.

In the north Pacific American army bombers continued their offensive against Japanese positions on the precariously held island of Kiska.

### Warnings Issued

Despite American successes in the south and southwest Pacific war zones, however, warnings were issued from MacArthur's headquarters that the Japanese were still reinforcing their positions in the island perimeter across the top of Australia.

Japanese activity was reported in the important Timor area northwest of Australia and the fact that eight ships were attacked off Wewak left no doubt that the enemy was determined to strengthen its garrison on northern New Guinea.

Destruction of the enemy's 22 ship armada in the Bismarck Sea area apparently failed to discourage the persistent Japanese from sending in reinforcements and supplies into the New Guinea area.

However, continuing American aerial activity in the Australian and Solomons war zones left no doubt that U. S. and the United Nations aerial superiority was mounting to a point where the Japanese would be hard pressed to meet the Allied strength.

While fresh Japanese moves are expected in the near future in the south and southwest Pacific theatres the chances are increasing that American and the United Nations forces soon will move offensively either to smash other bases in the Pacific areas or to take new island areas needed for the eventual drive on Tokyo.

made Thursday by Wickard. The farm secretary will release a compilation of reports of farmers' planting intentions gathered by the crop reporting board from every county throughout the nation.

Wickard has told members of Congress that he is pessimistic over this nation's ability to meet its food requirements. He feels that there will not be enough to meet demands of the armed forces, lend-lease and the home front.

County farm agents also have reported to Congress that they do not expect in the food picture, new wholesale price ceilings on seven fresh vegetables went into effect in 14 eastern cities where shortages in the commodities had been reported.

The ceilings apply to snap beans, cabbage, carrots, lettuce, spinach, peas and tomatoes sold at the eastern market terminals in Washington, Baltimore, New York, Albany, Newark, Buffalo, Rochester, Syracuse, Binghamton, Philadelphia, Erie, Pittsburgh, Scranton and Allentown.

## ANOTHER JAP CONVOY UNDER ALLIED ATTACK

(Continued From Page One)

Wewak airbase, the communiqué said, and attacked the town itself. Heavy anti-aircraft fire was encountered from both the ships and shore batteries but there was no attempt at interception and all the Allied aircraft returned safely.

Army spokesmen pointed out that the communiqué covered only fragmentary reports and that action against the convoy was continuing in St. Mary's cemetery. Interment will be in St. Mary's cemetery.

The body is at the Zehner funeral home, 133 North Beaver street, where friends may call this evening from 7 to 9 o'clock.

### Mrs. Hogan Larson

Mrs. Carolina Wilhemina Larson, aged 68, wife of Hogan Larson, 109 North Lee avenue, died in the Jameson Memorial hospital this morning at 3:15 o'clock. Ill since last Wednesday, Mrs. Larson was admitted to the hospital yesterday.

A resident of New Castle since 1900, Mrs. Larson was born in Sweden on December 28, 1874, a daughter of Peter and Gertrude Hokanson Peterson. She was a member of the Swedish Lutheran church. On last Thanksgiving Day, Mr. and Mrs. Larson celebrated their wedding anniversary.

In addition to her husband, Mrs. Larson is survived by three children, Mrs. Rose Abel, L. N. Larson, both of New Castle; Henry Larson of Pittsburgh; two sisters, Miss Martha Peterson of New Castle, Miss Constance Peterson of Cleveland, and eight grandchildren. Funeral services are to be conducted on March 21 at 8:03 a.m. EWT.

According to the Bureau of Engraving, one million dollar bills can be packed into thirty-five cubic feet of space.

COMPANY EMPLOYEES  
HONOR BIRTHDAYS

A group of girls from the Johnson Bronze second turn crucis department gathered in a local dining hall for a steak supper on Sunday, honoring the birthdays of Mary Santill and Bessie Recipio, employees of the department.

V for victory was formed by the patriotic tables, centered with a birthday cake.

Following the delicious meal, dancing was enjoyed, music provided by a local orchestra. Josephine Long favored the girls with the song, "You Are Always In My Heart".

The honored guests were the recipients of lovely handkerchiefs in remembrance of the occasion.

### OPENING ROUNDS

AS IN EVERY INSTANCE following a decisive American victory in the Southwest Pacific, enthusiasm engendered by the Bismarck Sea defeat for Japan is being followed by warnings intended to temper the belief that an easy road to victory is about to be opened.

Secretary Knox is cautious in saying the Japanese are in difficulties as a result of ship losses. He points out that the difficulties are increasing but are not yet extreme. General MacArthur reports that Japanese air strength in the Australian theater is knocked out—on the contrary, it is being augmented.

These observations may be inspired by a desire to continue reminding Americans that while the trend is favorable in the Southwest Pacific, Japan has not yet been hit vitally. The Nips have two or three rings of defense around the heart of their empire. MacArthur has penetrated the outer defensive ring at a point or two and is hacking away now with air and naval power at a second ring. But these are the opening rounds of the struggle. The climactic phase is approaching but has not arrived.

When American forces reach a position from which they can bomb Java, for example, and the sea lanes serving it, Japan will receive blows in a vital spot. Reopening of the Burma road would be another lethal blow. When the means have been attained to attack the Japanese archipelago with block-busters, Japan's fortunes will be on the decline.

These objectives will be attained in a reasonable period of time.

### NEW WEAPON

That powerful new tank destroyer which America is producing in quantity may be a development which will take the ponderous, heavily-armored tanks out of the war equation. Any war machine that lacks speed will be this new weapon's meat.

The tank destroyer is speedy and maneuverable. It has guns that are a match for those of any tank and it will run rings around the heavy tanks which have been great factors in this war will have seen their best days. They will begin to clutter the battlefields as junk.

Every weapon inspires the invention of a defensive weapon to combat it. The tank, an offensive terror, will be checkmated by America's tank destroyer. And when the destroyer has made the use of tanks too costly, it will doubtless be found to have offensive possibilities of its own.

### NAVAL SUPERIORITY

The basis of Secretary Knox's assertion that the United States has a four-ocean or five-ocean Navy well under preparation are figures showing that this nation is already well in the lead of any other on the seas. The country has at least twenty battleships, including the super-dreadnaught, Iowa. Britain has fifteen to seventeen battleships and Japan ten to thirteen. The United States has perhaps a two-to-one superiority of cruisers and destroyers over Japan. In submarines this nation also far outstrips the Japanese.

It is in naval air strength that America promises to swamp Japan and outclass all other nations. Germany has one or two carriers, Italy none and Japan three to nine. The United States has lost four of her original seven carriers but five new ones, larger than any the enemy has, are about ready. In addition a flock of others are coming along, including converted cruisers.

Officials are beginning to talk in terms of a vast fleet of carriers—large, middle-sized and small ones. With its tremendous aircraft manufacturing capacity, this country can equip any number of carriers and give an impenetrable air canopy to amphibian operations. In addition, air carriers can project bombing attacks to any quarter.

When this war ends America will be far ahead of any other nation in sea power and preponderance in the air. Whatever the terms of the peace may be, this nation will be equipped to enforce them.

### ADVERTISING CARRIES ON

Newspaper advertising is playing a part in the nation's war effort second in importance only to the service being rendered by the newspapers in keeping a free people informed, through the news and editorial columns, of day-to-day developments. Frequently of late the comment is heard that news over the radio is slanted, that the "newscaster" tries to direct the conclusions reached by the listener.

People seem to be learning rapidly—those who had forgotten it—that only through the still free press of America can they get the facts about the war and of developments on the home front.

In the economic life of the people the American press is playing a wartime role that would be impossible in nations like Germany, Italy or Russia, where the press as well as the radio is under the thumbs of the rulers. Scarcity of many products and rationing make the advertisements an even more important part of American life than in the past.

Predictions made by some of the collectivist boys—who abhor the very idea of advertising—that advertising volume was headed for a serious (they hoped fatal) slump during the war have been proved as erroneous as all their other theories. Mercantile, manufacturing and service firms are continuing to advertise for the same reason they advertised in the past—they find it pays—and people have discovered they can save time and money under present conditions of scarcity, just as they did in the past, by consulting the advertisements.

Rumors persist that Hitler and Mussolini, who perfected the technique of bombing cities in Ethiopia and Spain, no longer think highly of their invention and want the Pope or somebody to try to call it off.

WASHINGTON—Wendell L. Willkie seeking in supreme court to reverse a lower court ruling revoking naturalization of Communist William J. Schneiderman: "It is not true that Communists do not believe in organized government. The argument might successfully be made that the Communists believe in too much organized government."

ATLANTA—Secretary of Navy Frank Knox: "In our unity we are fiercely intent on but one objective—the utter destruction and the unconditional surrender of our enemies."

### The Parent Problem

By Garry C. Myers, Ph.D.

#### WARTIME FLIGHT OF COLLEGES

Thousands of parents who have graduated from one of the hundreds of small colleges scattered throughout the United States, or whose children have attended them, are wondering now what is going to happen to Dear Old Alma Mater.

Since most of the small colleges are co-educational, a very large contribution by these small colleges has been their conserving of wholesome family life and ideals. Matches made on their campus grow into marriages that endure far longer than those for the population in general, and even longer, it seems, than those for the larger private universities and the state colleges and universities. Naturally so, since they bring together so many young couples from very similar backgrounds in family life—the best single guarantee of successful marriage.

#### True Democracy

Each of these many small colleges too has a certain individuality hardly enjoyed to the same degree, when the football team is ignored by the state colleges and universities. They are good barriers against regimentation, and should prove very precious after-the-war beacon lights of democracy.

Of course, during war, these must be regimented. The war must be won.

When, therefore, the government chooses for special, technical training, certain of its selected young men of the armed forces, it chooses the colleges best equipped for this service. Most of these small colleges, being liberal arts colleges, are lacking in facilities for technical training.

While all colleges are losing most of their regular men students and many of their women students to the armed forces, the small colleges not selected for special training and education of selectees will have to close their doors or struggle on at a terrific sacrifice to their faculties and contributing supporters. Already some have folded up.

The other day, the president of one of these small colleges showed me a letter from a New York firm announcing they were in the field to buy up closing colleges.

While a few of these small colleges hardly had good reason to continue for the past several years, most of them, it seems to me, should be subsidized by the federal government enough to tide them over for the duration. They will be sorely needed to help rebuild our democracy after the war.

A good wife always helps her husband with the housework.

The chief objection to changing from oil to soft coal is that soap made without coconut oil won't lather much.

#### PERT AND PERTINENT

"There are more than 70 million Americans who can't whistle a tune."

But only a very few of them realize it.

"What are the two chief causes of divorce in America today?"

How about matrimony and alimony?

"Teaching evolution in the grade schools will make people understand and accept it."

"Well, will they still teach spelling in the grade schools?"

"What is the supreme test of faith?"—Notice on a church bulletin board.

Off-hand we'd say an employed wife willing to take in a feminine boarder.

The pay-as-you-go stuff is causing a lot of argument. Of course by those who don't want to pay that way.

#### ADD-HINTS AND DINTS

Bobby (in church)—Mama what do they do with all the pretty flowers on the altar?

Mama—SH-r-r! They will be given to those who are sick at the close of the service.

Evolution, we are told, cured the human race of tails. And none too soon either. Think of how inconvenient they would be when you go through a revolving door.

It may be presumed that the chief executive was speaking facetiously but the subject of his comments is not funny. The Congress has refused to grant the one million four hundred thousand dollars because the people and their representatives are fed up with what has been aptly called super-boondoggling and because the agent for post-war planning should be Congress itself and not an executive board.

The President is right that we should look forward to the post-war era, but wrong in his apparent belief that the way to do it is to make grandioses plans for another vast program of government-made work.

But even if public works were the beginning and the end of our planning, Congress could do the job well or better than the executive agency, and at a saving of more than a million dollars.

What we really need in approaching the problems that will confront us in the peace is full realization that there can be no return to the

### HINTS AND DINTS

We like the story about the two fleas who fell in love and got married.

Young, industrious and ambitious, they worked hard for a long time and saved their money.

They were thrifty, loyal and economical. They didn't have much fun, as we might think of fun, but they loved each other dearly, and besides, they had the satisfaction of working for the future.

One day they counted up all the money they had saved. Imagine their surprise and joy to find they had amassed the sum of Five Dollars!

Did all this money turn this thrifty couple's heads? On the contrary, it gave them an idea. If they could save Five Dollars, why not ten? A firm resolve was born in their minds. They would have something all to themselves—something that no other two fleas had ever dared to even hope for.

From that day on they redoubled their efforts to save. They toiled and scrimped and economized, sacrificed all the pleasures ordinary fleas indulge themselves in—for a cause.

In some places bus drivers are refusing to drive buses over streets that are in bad condition. That is giving some people a bump.

Months went by, and at last came the day when the last penny was deposited in the stocking, totaling in all the coveted sum of Ten Dollars.

And on that very day, they went out and bought a nice, wooly dog.

George—Where have you been all this time? Here I've been waiting for you like a fool for the past hour.

Maria—I'm sorry if I kept you waiting, George dear, but I think you are unreasonable to blame me for how you waited.

She was so beautiful no man jury could believe her guilty of the crime.

Men have greater respect for girls under parental guidance than they do for the gadabouts who are permitted to do as they please.

If you once establish a reputation among the neighborhood boys as a "good thing" you may find yourself popular for a time, but not for long. No man likes to share his girl and no man will take seriously a flighty, promiscuous girl who cares nothing for the questionable reputation she establishes by bringing Tom, Dick and Harry for a post-midnight chat in the parlor.

There is also the practical element to this question: The new 48-hour week must cut into our social life. No man or woman can do good work without eight hours sleep a night. So, we must all develop into Cinderellas who arrive home as the last stroke of 12 is sounding.

Only the millionaire playboy (who is fast disappearing into the Army and war plants) can stand our pre-war social pace.

## Plan Annual 'Y Campaign

Richard E. Rentz To Head  
Annual Y. M. C. A.  
Membership Cam-  
paign

RICHARD E. RENTZ

Shock troops of the Young Men's Christian Association membership army swung into action Saturday, when the Boy's Division selected teams and got under way. The boys' drive is preliminary to the adult drive which will start in April. Richard E. Rentz has been named commander of the membership campaign this year, with Alec Samuels and J. Preston Flaherty as division commanders. Each division commander has 6 captains and each captain will choose three aides to assist him. Prospect cards will be given the captains by April 1.

## No Dinners

This campaign will be slightly different than the usual ones in that no dinners will be held for the report meetings. Rationing and shortages make it impossible to hold such dinners and the YMCA has decided that it would be improper to hold them this year.

Insofar as possible, Commander Rentz and his aides intend to make this campaign a streamlined one. The value of YMCA training to boys and young men is being demonstrated every day in the fitness of men being called to service. Thus far over 400 members and former members of the association have been called into the armed services.

Gymnasium classes, swimming, the annual camp on the Slippery Rock, all of them are important factors in body building and their worth is too well known to need any space here.

In the meantime the boys are signing up their friends and neighbors in the YMCA drive. In two weeks the men will be in action and the campaign will be on in full.

## Fail To Appear In Police Court

Lieutenant J. P. Steiner headed a raid at 1312 Howard Way, Saturday night, and when Tony Dombrowski, alleged he was married to "Mrs. Ludwina Skarbec," he, like her, was forced to post a cash bond of \$100 for a police court hearing Sunday morning on charge of operating a disorderly house. However, neither appeared. Two visitors were each fined \$10.

## CLASS GETS BANNER FOR BUYING SAVINGS STAMPS

With a perfect percentage of war stamp purchase class 6-4 of Lincoln-Garfield school has been awarded a banner for its 100% purchase of war saving stamps.

Banners have also been awarded at the school to classes 2-2 and 5-1 for having bought record amounts of stamps.

Since school opened in September, pupils only of Lincoln-Garfield have invested \$10,100.75 in stamps and bonds.

## GEN. DeGAULLE PRAISES STAND OF GEN. GIRAUD

(International News Service)

LONDON, March 15—Gen. Charles de Gaulle, leader of the Fighting French, issued an official statement today praising Gen. Henri Honore Giraud's broadcast abrogating Vichy laws in North Africa and promising restoration of the French republic.

He again pledged his willingness to work out full union among French forces.

His statement said:

"I note with satisfaction that these declarations mark in many respects great progress toward the doctrine of fighting France as defined and upheld 1940 and again expressed in the memorandum of the French National Committee on February 23.

"Countless testimonies that have reached us from France show that this doctrine is passionately approved by the immense majority of our oppressed nation.

"The National Committee now hopes to see Gen. Giraud's declarations speedily translated into acts at Algiers, Casablanca and Dakar. In any case I repeat today that we are ready to study on the spot, between Frenchmen, conditions and ways and means of effective union of the empire is imperiously demanded by the interests of France at war."

## War Workers At Butler Plant To Grow Vegetables

### Food To Be Produced By And For Workers At Bantam Car Company On Farm

(International News Service)

PITTSBURGH, March 15—War workers, like the armies they supply, travel on their stomachs—even if it's only from home to factory and back.

Therefore some 700 employees of American Bantam Car company at nearby Butler will go on a double production schedule this summer—in the mill and on the 100-acre farm leased by the company. In addition to turning out war materials, they will produce vegetables for their own consumption.

Rationing applies to war workers as well as other civilians and the men and women at the Butler plant hope to grow enough fresh food-stuffs and canned crops to keep the cellars well-stocked all the year round.

The victory garden was leased from William Mitchell, a general foreman at American Bantam. Mitchell will assist another employee, John H. Bennett, in supervising the farm.

Francis Penn, president of the company, said he expects to have the workers eating their "home-grown" vegetables by July.

## Suggests Display Of Non-Partisan Unity On Jefferson Day

(International News Service)

PITTSBURGH, March 15—National public demonstrations on Thomas Jefferson's birthday to show American "cooperation and unity without partisanship to carry on this war to victory and win peace for all mankind" had been suggested today by Councilman A. L. Wolk to President Roosevelt and other high government officials.

"No day could be more appropriate than the two hundredth anniversary of the birth of Thomas Jefferson for the American people to emphasize their complete unity to attain victory and secure for mankind the objectives of the rights of man and the Atlantic charter," the Pittsburgh solon said.

Jefferson's birthday is April 13. Wolk's plan would have various government officials and the public as well pay special tribute to him, and pledge anew America's unity of thought and purpose in the nation's war effort.

Wolk's plan would have various government officials and the public as well pay special tribute to him, and pledge anew America's unity of thought and purpose in the nation's war effort.

House Republican Leader Joseph Martin, Jr., asserted it likely that the GOP members will oppose the administration's measure and added that there is a "good chance" that enough Democrats will break ranks to upset it.

Rep. Carlson (R) Kan., a member of the ways and means committee, has introduced a bill providing for the abatement of a year's taxes and embodying the other essential features of the plan advocated by Beardsey Rumel, chairman of the New York Federal Reserve Board.

It is this legislation that the GOP hopes to substitute for the administration's bill on the house floor and it will be the subject of a minority report by nine Republicans on the ways and means committee who are demanding pay-as-you-go.

Complete Bombing Mission  
Over Europe Despite  
Harrowing Odds

By EARL MARCKRES  
(U.S. Staff Correspondent)

WASHINGTON, March 15.—Three U. S. Army Air Force officers were cited today for successfully completing a bombing mission over Europe after enemy fire disabled their plane, shattered the pilot's right arm, seriously wounded the co-pilot and left the bombardier to bring home the craft he had never flown.

For this astounding feat, the War Department disclosed that the Distinguished Flying Cross has been awarded to First Lieut. Howard N. Young, 26, of Berkeley, Calif., pilot; Second Lieut. Cleveland D. Hickman, 21, of Albany, Calif., co-pilot, and Second Lieut. Anthony C. Yen-alavage, 24, of Kingston, Pa., bombardier.

The officers' harrowing experience began shortly after their giant B-24 Liberator bomber roared out from a British airfield on a routine bombing flight over Europe.

**Enemy Craft Attack**

Approaching the Continent, the bomber was met by swarms of enemy craft attacking in waves. Blistering gunfire raked the American plane. A cannon shell struck Lieut. Young in the right arm and seriously wounded Hickman. Succeeding waves bore down for the kill, but the bullet-ridden craft, with most of its crew wounded and its equilibrium disturbed, weathered the storm.

Despite intense pain, Young remained at the controls until the bombing run was completed. Hickman then relieved him momentarily while Yen-alavage, the bombardier, hastily gave first aid.

With the two pilots, who ironically reside in adjoining California communities, virtually out of action, Yen-alavage took over the controls. He had never flown a bombing plane before, but with incidental coaching from the co-pilot he maintained his position in the formation of bombers until leaving the Continent.

The shrine of St. Anthony is being decorated for the occasion.

Practically there are only two distinct kinds of wolves in America—the large gray timber wolf and the prairie wolf or coyote.

Over the English channel the would-be "pilot" suddenly struck bad weather. Unperturbed, he broke formation, flew alone and finally landed without further injury to the crew or damage to the plane.

### ALL THREE SOLDIERS OF FAMILY ENJOYING FURLoughs AT ONCE

International News Service  
PITTSBURGH, March 15.—When the Yunkers of Pittsburgh get together, it resembles a miniature American Legion convention.

All the male members of the Yunker family—Lieut. Leo D. the father, and Corp. Regis J., 24, and Pvt. Leo A., 19, the two sons—are enjoying simultaneous furloughs at their home today.

Lieut. Yunker had to come the farthest for the reunion. He has just returned from Australia where he saw action against the Japs and was wounded. Regis is stationed at Fort Riley, Kans., with an armored division, and Leo's camp is located in Atlantic City.

Lieut. Yunker was present when Jap planes bombed the Australian port of Darwin last summer in what many thought was a prelude to invasion.

### Solemn Novena Will Start At St. Vitus

Continues For 13 Tuesdays,  
Closing On June 13 Feast  
Of St. Anthony

On Tuesday evening, March 16, the solemn novena in honor of St. Anthony will start in St. Vitus church in preparation for the Feast of St. Anthony, and will continue for 13 Tuesdays, closing June 13, Feast of St. Anthony.

In order to accommodate the large crowds, usually present at the novena, two services will be held every Tuesday evening. The first at 6:30 o'clock, and the second at 8 o'clock. Rev. Fr. Nicholas DeMita, pastor, and Rev. Fr. Albert M. Inteso, assistant pastor, will conduct the services, and at both services Father Inteso will speak on the life of St. Anthony.

Every Tuesday morning a high mass will be offered at 7 o'clock to all those with the intention of making the solemn novena. The novena is also being offered for a speedy victory and peace, and for the safe return of the boys now serving in the armed forces, which today numbers more than 600 boys from the St. Vitus parish. All those making the novena are to attend mass every Tuesday morning, if possible, which will last for half an hour, in order to insure the working people to get to work on time. Communion will be distributed during mass, and confessions will be heard before the mass.

The shrine of St. Anthony is being decorated for the occasion.

### War Fund Reports Are Encouraging

Returns This Morning Show  
That Workers Have Been  
Busy In Last Few  
Days

### HOPE TO CLEAN UP DRIVE SOON

By the war reports were coming in this morning, most of them of a very encouraging nature. Dr. Robert F. Galbreath, chairman of the Lawrence County War Fund drive is hopeful that the campaign can be cleaned up this week.

He has called a meeting of all division chairmen for Thursday evening, in conjunction with a call issued by Chapter Chairman Walter W. Duff for a meeting of the Red Cross Board at 8 o'clock in the Chapter House, when he is asking that final reports be submitted by all workers if possible.

Some splendid reports were turned in this morning from the rural areas, showing that residents in these districts are heeding the plea for double the amount in past drives. In spite of the urgent need, some workers have found that people are too prone to give just a dollar, which used to be the membership cost. This will not be enough to put the drive over, Dr. Galbreath points out, and citizens are urged to take cognizance of the great need for additional funds to carry on the work among the men in the armed forces at this time, and to give as generously as they possibly can.

Among the amounts received this morning was \$1,072.92 from Mahoning township which was submitted by Mrs. Elizabeth Miller, chairman of that district. This is just a partial report. Other reports, all partial were: Mrs. Ray Foster, Plain Grove \$207; Edensburg, \$114.75; Shenango township, \$26; Harlansburg, \$252.30; B. and O. Railroad, J. F. Cable terminal transmpter, \$108.50.

Other amounts were: \$187.63; pupils of Senior high school; Local No. 171, U. W. O. C., \$5; Junior Reading Circle, \$5.

### SWIVEL CHAIR FARMERS HIT

Governor Bricker Assails Regime of Agriculture  
In United States

By ROBERT PARKS  
(U. S. Staff Correspondent)

DES MOINES, Ia., March 15.—Regimentation of agriculture by "visionaries and swivel chair farmers" as brought wartime America to the "brink of famine," Gov. John W. Bricker of Ohio, declared in Des Moines today.

He told the Manpower and Farm Planning conference of Mid-West governors that while 1943 food requirements of the United States and her Allies are considerably above those of last year, every indication points to sharply reduced harvests.

Blame for "this pitiful paradox" was laid by the Ohio executive to the freezing of vital farm machinery and equipment at a time when experienced agricultural workers have been drafted into the armed forces.

The farm leaders representing 12 Midwest "breadbasket" states and the governors in attendance agreed that furloughs for farm workers now in the service and vastly increased production of agricultural machinery are the only means of forestalling a dangerous food shortage next winter.

General concurrence was expressed in these proposals by Gov. Bricker:

1. Recognize agriculture as an essential war industry on an even footing with the production of planes, ships and tanks.

2. Dissolve the freeze order so manufacturers may assemble thousands of tractors, plows, sowers, and harvesting machines for parts parts now are lying idle in warehouses.

4. Prolong experienced farm workers from the armed services during planting and harvest seasons unless they are in foreign service.

### Socially-Prominent Pittsburgher Victim Of \$17,000 Robbery

(International News Service)

PITTSBURGH, March 15.—Socially-prominent Mrs. Edith Adair Hays, Pittsburgh real estate executive, was identified today as the woman from whom \$17,000 worth of jewelry was stolen last week while returning from a business trip to Toronto, Canada.

Mrs. Hays, vice president of the Howard Land company, told police she missed the jewelry Friday when she reached home. A search of the taxi and the train failed to disclose any trace of her purse, in which she had been carrying the gems.

Police reported the loot consisted of a string of 91 pearls valued at \$15,000; a diamond ring worth \$1,000; a pin of emeralds, diamonds and sapphires worth \$1,500; \$350 in cash and gold eye glasses and case worth \$150.

Reward of \$1,500 has been posted for information leading to recovery of the jewels.

### COUNCIL PLANS TO ATTEND CONFERENCE

When council met this morning in city hall the P. & L. E. railroad informed the body a petition had been given the Public Utilities commission asking approval for alteration of a crossing at grade where the company's tracks and the right of way of the company cross Cherry street. The city maintains the point is outside the city limits. However, council will attend the meeting there with a state P.U.C. official March 19 at 10 a.m.

Giraud's Speech Believed  
To Open Way For  
Amalgamation

(International News Service)

ALGIERS, March 15.—Prospects for complete union of all French elements opposed to Nazism and Fascism were brighter today following Gen. Henri Honore Giraud's pledge to fight for re-establishment of the French republic on broad democratic outlines.

Giraud's speech, delivered before the Alsace-Lorraine society, was broadcast over an international hook-up. It was the highlight of a protest meeting against Germany's employment of forced labor measures in the provinces of Alsace and Lorraine.

As civil and military commander in chief of French Africa, Giraud promised the repeal of all Vichy legislation, particularly anti-Jewish decrees, restoration of democratic functions in the territory under his control and elimination of all Axis influences whether "measures or men" from North African life.

Declaring that he was "the servant of the French people" rather than their leader or master, Giraud held out the hand of friendship to Gen. Charles De Gaulle without actually mentioning the Fighting French leader by name.

"For my part," he said, "I am ready to cooperate with all those who, accepting the fundamental and traditional principles of which I have spoken, joining in the solemn promises which I make to the people of France, are participating in the fight against the enemy."

The offer, matching that made by De Gaulle in London last Friday, was believed to have done much to ease the strained feelings between the two camps of Frenchmen whose chief aim, despite their numerous differences, remains the destruction of Nazism and Fascism.

**London Reports Axis Bombs Strike Hospital In Northeast England**

(International News Service)

LONDON, March 15.—The Nazi-controlled Vichy radio said today that "great numbers" of enemy bombers, flying at a high altitude, had attacked the suburb of a town in the province of Picardy in northern France.

The broadcast said a large number of high explosive bombs were dropped. Many houses were said to have been destroyed, while 14 persons were reported killed and 30 injured. In another town in Picardy, the broadcast declared, five persons were killed.

The Paris radio said that American bombers had attacked the town of Amiens but gave no details.

Axle bombers struck a hospital in an unidentified town in northeast England this morning, but 50 children patients escaped without injury. The nursing staff evacuated the children to other hospitals.

An official announcement said that no children were trapped in the hospital. Two schools, a church and a business establishment suffered considerable damage and several persons were killed.

Air raid alarms in Zurich, Berne and Geneva, Switzerland, were sounded late Sunday night and early this morning, indicating that Allied raiders might be on their way to Italy.

**Midnight Curfew For Bars Considered**

(International News Service)

PITTSBURGH, March 15.—The Martin administration was reported today to be considering a midnight curfew for bars and taprooms as a means of combatting the labor shortage and absenteeism in war plants.

The chief executive was said to have discussed that move and sev-

eral other proposals with house and senate G.O.P. leaders recently, and may soon be underway to tighten up the general liquor control program, this report said.

Other changes under consideration, it was said, would give the liquor control board wider latitude in suspending and revoking licenses; ban the issuance of new club licenses in communities where the quota is filled; authorize establishment of state stores for wholesalers only; give the board the right of appeal to superior court in enforcement cases; limit court reviews of board decisions to points of law; and protect service-bound licenses by depositing their charters with the board for the duration.

## "Typical Housewife" Holds Woman's Touch Needed In Rationing

By PHILLIPS J. PECK  
(O. N. S. Staff Correspondent)

WASHINGTON, March 15.—Woman's place is no longer in the home—it's in the WAAACs, the WAVES, and at the local rationing board.

Take it from Mrs. Philip Crowle there has been entirely too much rationing by bachelors who have lived in hotels, eaten in boarding houses and wouldn't know a saucepan from a box of super suds.

The Huron (S. D.) housewife wants a woman's touch in rationing and she is going to get it.

Picked out of mid-western town of 10,000 population to become OPA's "typical housewife," Mrs. Crowle proposes to install women on the agency's thousands of local rationing boards to help ration coffee, sugar, meats, canned goods, butter and the other fats and oils.

Let the male ration board members expert the gasoline and fuel situation, dole out farm machinery and rubber boots, but leave the food business to the feminine sex. That's Mrs. Crowle's credo and it

is going to be her first project in making rationing understandable to 35,000,000 American housewives.

**One In Each County**  
"I think we should be able to get at least one housewife in every county in the United States to serve on a rationing board," she said. "They do civilian defense work now for the Red Cross and participate in other war activities. Why shouldn't housewives be the logical persons to explain food rationing to other housewives."

Mrs. Crowle is convinced that women will like the idea and rally to the cause.

"In this day and age, when housewives have electric ranges and other modern appliances, it only takes two or three hours to do up the housework," she said. "The kids are off to school all day. A housewife should be able to spend several hours a day on rationing board activities."

Mrs. Crowle's appointment as OPA's "typical housewife", the brain-child of Price Administrator Prentiss M. Brown, who seeks to make his agency more acceptable to the public, has just been approved by the Civil Service Commission. A professional "housewife", she'll draw \$5600 a year.

**More Explaining Needed**  
Fresh from the Dakota plains, she has a number of thoughts about rationing, which are fairly current in the hinterland, to wit:

1. There are too many questioners; 2. There has been too little effort to educate the long-suffering public to the why and wherefore of rationing; 3. There has been too much of this business of saying "Here it is, brother, take it and like it."

"In the announcements out of Washington, there has been too much stress on the penalties facing violators and not enough emphasis on the necessity for rationing and on the need for patriotic cooperation in the program," she said.

"You can't make it work solely by police and enforcement methods. The public has to be shown the reasons for rationing and made to understand that it is a patriotic duty to observe the rules. Part of my job is to make rationing understandable and to make it practical. By and large, the complaints have been on little things, such as getting sugar for canning."

DETROIT, March 15—Detroit tank production was threatened by slowdown Saturday, when 35 engine block testers walked off their jobs at the Detroit Diesel plant, a general motors unit. The walkout will force a layoff of 80 assemblers and within a short time halt tank production at two other General Motors plants according to Harry Anderson, corporation labor relations chief.

Anderson said the workers were reportedly dissatisfied with a pay scale of \$1.10 an hour.

The block testers were awarded their present scale by a September WPB decision which made a raise retroactive to April 28.

(International News Service)

WASHINGTON, March 15—The Office of War Information disclosed Saturday that nine French passenger liners and 22 French freighters recently have been added to the pool of United Nations' shipping.

The announcement was released for publication by Admiral Frenaud, chief of the French naval mission in Washington, who is here representing General Giraud, French high commissioner in North Africa.

The French admiral also revealed that the fleet of 31 vessels has been in operation in allied convoys for several weeks. The passenger liners have a total gross tonnage of 95,986 tons and the freighters 172,594 tons.

With enemies as brave and skilled as our own men, victory or defeat will come from our factories.

**Direct Relief  
Payments Halted**

Lawrence County Needy Resi-  
dents' Payments Drop

Nearly Half

HARRISBURG, March 15—State Treasurer G. Harold Wagner reported that direct relief payments made to needy residents of Lawrence county during the week ended March 12 totalled \$979, which was \$728 lower than those of the comparable week of last year.

Payments were up \$45 over the previous week, when \$1024 was disbursed.

At the same time, State Treasurer Wagner announced total payments of \$38,997 during February for all types of assistance, including old age assistance, aid to dependent children and pensions for the blind, to Lawrence countians. This was a drop of \$876 from January payments.

At Westminster

NEW WILMINGTON, March 15—A new group of naval aviators cadets arrived here at Westminster college last week to begin eight weeks of basic training. The contingent of 40 men is an increase of ten men over the previous groups.

Now completing their flying time requirements, the present group of 30 cadets are expected to leave the campus Tuesday for an advanced instruction base, Lieut. Murray G. Armentrout, naval officer in charge, said today.

Under the present program, cadets receive ground school instruction at the college and flying lessons at the Wilson flying school, New Castle airport.

**SWIMMING POOLS**

We have three indoor pools in New Castle, one at each junior high school and one at the Y.M.C.A. They are kept in first class condition. The water is treated with chemicals so as to be safe for the swimmers.

Regular inspections are made and the water is tested in the city laboratory.

With these admirable facilities all of young people should know how to swim.

Instructors and guards are provided at all the pools.

All swimmers are inspected and bathed before entering the pool.

There is no danger of catching cold after swimming in a pool in the winter.

## SALARY LOANS \$25-\$50-\$100 OR MORE

Borrow on your earning ability—No endorsers needed—Pay charges only for the time you have the money

**SHORTH OF CASH?** If you have a steady job, you should investigate Household's salary loan plan. This plan offers a quick, simple way for men and women who are working to borrow at reasonable cost. No endorsers are ever needed. You borrow on your earning ability and willingness to repay. We also make car and furniture loans. Even when making these loans we consider character and regular income more important than the borrower's security.

**Choose your own plan** You may repay a loan in a few days or in a number of monthly instalments—whichever best suits your needs. Charges are made only for the actual time you have the money. At our rate of 3% per month, a \$25 loan costs

\$1.52 when repaid in three monthly instalments, but only 18¢ when repaid at the end of a week. A \$50 loan repaid in four monthly instalments of \$13.45 each costs \$3.80—or if repaid in one month costs \$1.50.

**Solve money problems here.** Getting a loan at Household is a quick, private transaction—we require no endorsers or guarantors. The table below shows many sample monthly payment plans—we can fit our service to your needs. All payments include principal and interest.

You may get a Household loan to pay your doctor or dentist, insurance or taxes, old store bills, repairs, union fees—for almost any purpose. If you need money, phone, write or visit Household Finance.

**Paralyzed!**

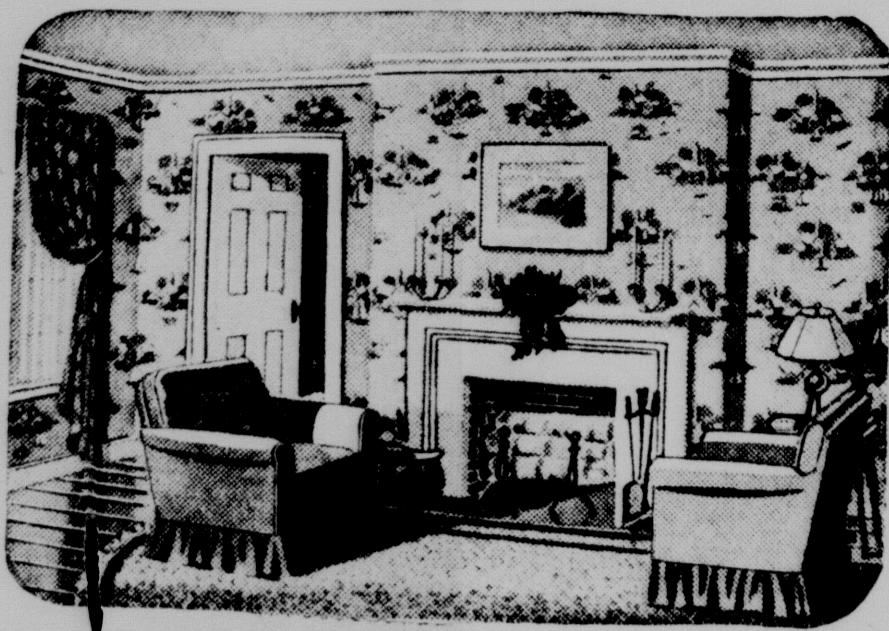

Telephone service in the United States has gone to the dogs, according to Berlin. This happened several months ago, says Herr Goebbels' garbled propaganda.

Way back in October, the CBS listening post heard this amazing broadcast from the Nazi capital.

"Due to the shortage of raw materials and of special workers in the United States, the telephone industry was forced to paralyze its work for a period of 40 days."

It really isn't quite that bad, Herr Goebbels. True, we're short of copper and someday you may get some of it "right in der Fuehrer's face!" But we're still handling a few calls—about 110,000,000 a day. And an awful lot of those calls carry BAD NEWS for you and your whole gang! The Bell Telephone Company of Pennsylvania.

## Fighting French Column Saved By Allies From Air

Surrounded French Troops Near Mareth Line Rescued By U. S. British Fighters

By GEORGE LAIT

(U. S. Staff Correspondent)  
WITH THE BRITISH EIGHTH ARMY. Before the Mareth Line, March 15.—(Delayed)—Prompt and speedy action by the United States Army Air Force and the Royal Air Force saved the fighting French column commanded by Gen. Jacques Leclerc from serious casualties and possibly from annihilation, it was revealed today.

You correspondent saw wave upon wave of British and American fighters and fighter-bombers pass overhead Wednesday afternoon, heading toward Foun Tatahouine, but not until today was he able to learn what objective was taking them in that direction.

This morning, however, it was learned what they were answering a hurry call from the fighting French column which, working around the right flank of the Mareth line, had become surrounded on noon Wednesday by two-score German armored cars behind the Matmata mountains, some miles west of Foun Tatahouine.

The moment news of the French column's plight reached Allied advanced air headquarters, our fighters took to the aid and oared over the area to strike and bomb the enemy in order to relieve the trapped troops.

Break Iron Ring

How well they did the job is evidenced by the fact that by 5 p. m. the iron ring around the Frenchmen had been broken and the enemy's armored unit was fleeing toward its base, leaving nine of ten vehicles—armored cars and lorries—ablaze on the field of battle.

As a result of this efficient intervention, the French forces were saved, whereas they faced almost annihilation had not the airmen arrived in time.

Today French headquarters reported that they were not pursuing the enemy, but added:

"We are afraid we cannot keep up with him."

### OCD NOTES

Activities Of OCD Workers Are Outlined Here

Meetings of OCD members will remain the same this week as last week unless cancellation orders have been issued, it was reported today.

The OCD movies displayed Friday were highly instructive. A large number of OCD's enjoyed the films.

Auxiliary Fire company No. 7 has a new class taking training. Instructions about bombs will be explained Wednesday night. First aid begins March 22.

City OCD has announced that helmets may be worn only by persons certified and over 21 years of age. Messengers under that age are not allowed to wear them. Cards and arm-bands are issued to junior messengers and messengers.

Posts should immediately clear receipts for arm-bands. Senior wardens should present a list who got them. Identification card numbers are vital to such a clearance at the city OCD.

## Miss Helen Christie Weds Lester Biggins

Wedding Solemnized Saturday  
Afternoon At First U. P.  
Church By Dr. W. E.  
Minter

ELLWOOD CITY, March 15.—A pretty wedding was solemnized on Saturday afternoon at 3:30 o'clock at the First U. P. church when Miss Helen Allene Christie, daughter of Mr. and Mrs. Homer Christie of Franklin avenue, became the bride of Fireman First Class Lester L. Biggins of the U. S. navy, son of Mr. and Mrs. Glenn Biggins of the Ellwood-New Brighton road.

The pastor, Dr. W. E. Minter, officiated using the popular single ring ceremony in the presence of many relatives and friends. The altar, embossed with ferns and flowers, formed a lovely setting for the wedding.

Preceding the ceremony organ nuptial selections were played by Mrs. Ralph Little.

Given in marriage by her father, the bride was attractively attired in a sky blue wool suit with white accessories. She wore a corsage of white gardenias.

Her sister, Mrs. Paul Kuben of McKeesport was matron of honor, and chose a becoming coffee brown wool suit with tan accompaniments, and her flowers were yellow roses.

Paul E. Kuben of McKeesport served as best man, and ushers were Charles Orr and John Walton.

A reception followed at the bride's home for members of the immediate families and close friends. A three-tiered wedding cake centered the bride's table and was topped with a bride and groom in miniature which was also used at the wedding of the bride's two sisters, Mary Evelyn and Amanda.

In the evening the couple departed on a short wedding trip. Returning here the bride will spend a week with her parents before returning to her duties as a nurse at the Allegheny General hospital, Pittsburgh. The bridegroom, who is a well-remembered high school football star, will be transferred to California.

Relatives and friends attended the ceremony from East Palestine, Pittsburgh, McKeesport, New Castle and Kittanning.

## Weekly Schedule At Lutheran Church

ELLWOOD CITY, March 15.—On Monday evening the regular monthly meeting of the Lutheran brotherhood will be in the Sunday school room at eight o'clock. Samuel Weiss will lead the evening devotion.

The Queen Esther Bible class will hold its monthly meeting at the home of Mrs. Harry Goehring; hostess, Mrs. Harry Gabler.

Wednesday evening at 7:45 Lenten services. "Mary, An Example of Loving Service".

A Lenten week of prayer and self-denial, sponsored by the Woman's Missionary society, will meet this week in the church Sunday school room from 1:30 to 2:30 p. m. The leaders for the week are: Monday, Mrs. Robert Mellon; Tuesday, Mrs. John Duffy; Wednesday, Mrs. A. W. Klinedinst; Thursday, the Young Woman's Missionary society; Friday, Mrs. Paul Shanor.

## CARL MEISE IS

### GIVEN SURPRISE

ELLWOOD CITY, March 15.—Carl Meise, son of Mr. and Mrs. Carl Meise, Ewing Park, was completely surprised on Saturday afternoon when he returned to his home to find a group of friends gathered there to celebrate his ninth birthday anniversary.

Bingo and Chinese checkers were the afternoon diversions. A St. Patrick's day appointed lunch was served by the hostess aided by Mrs. Thuman Croft and Mrs. Ben Staude, of Pittsburgh, mother of Mrs. Meise.

The honor guest was presented with a number of attractive gifts.

## WHAT THE WELL-DRESSED ARMY NURSES WILL WEAR

TRADITIONAL BLUE UNIFORM of the Army nurse goes with the wind after July 1, to be replaced by smart khaki outfits similar to that worn by the WAACs. In this photo Army nurses show the principal items of the new Army nurse wardrobe in New York. From left to right we have: Margaret Sullivan in olive drab wool uniform; Theresa Hughes in a two-piece lightweight wool beige uniform for summer; Belle Moran in a trench coat with button-in liner coat; Catherine Donegan, wearing a brown and white seersucker wraparound, designed for active duty overseas; Patricia Ranney in white poplin for duty in U. S.; Jeanette Schwartz, wearing shirt and trousers, alpaca-lined for cold climate wear; and Mary Kilcoyne in a two-piece herringbone twill for advanced field wear. (International)

## FIGURE IN DRAFT-COURT BATTLE

HOLDING HER 7-MONTHS-OLD TWINS IN HER ARMS, Mrs. Philip Mancuso awaits word in her home in Philadelphia of the controversy between Judge Geo. A. Welsh and Local Draft Board No. 1 over the classification of her husband. Welsh ruled that Mancuso, placed in 1-A by the Board, hadn't been given a fair hearing. He warns that the induction of the young father under the present status may result in the placing of a contempt of court charge. (International Soundphoto)

## Four Blackout Violators Fined In Ellwood City

ELLWOOD CITY, March 15.—The trial board of the local Civilian Defense Council met on Saturday afternoon to take care of violations that occurred during the blackout drill of March 5. Four local persons received fines by Burgess Clyde Houk and three were held over for further investigation by the burgess.

Trial board members warned persons having gas stoves in their homes to shut them off during a blackout as they shine out like a beacon when the town is in darkness. The same is true of the slide on the door of a furnace. This slide should be closed as the light reflects outside and appears as though a light is burning in the cellar.

A new ruling also places the burden of store display windows in the hands of the store owner. The owner should contact someone who will be responsible for putting out the lights during a blackout as the air raid warden cannot assume the responsibility. All night blackouts are in the offing and homes in the community are urged to blackout one room which can be used for normal living during a blackout.

## North Sewickley Class Assembles

ELLWOOD CITY, March 15.—The Open Road class enjoyed a tureen dinner on Saturday evening at the North Sewickley Presbyterian church with arrangements being in charge of Mrs. Floyd Kramer, Mrs. William Hinkle and Mrs. Harry Hofelder.

An election of officers was held and resulted: President, Oliver Aiken; vice president, William Hinkle; secretary, Miss Ella Pflegh; treasurer, Mrs. William Hinkle; teacher, Joseph Clark, and assistant, Charles Pflegh.

At the meeting the class decided to sponsor a project for having the church driveway repaired with limestone.

The parents are the only immediate survivors.

## Merchants Reminded Of Inventory Order

### WPB Limitation Order Reports Must Be Filed Before March 25

ELLWOOD CITY, March 15.—Merchants subject to the War Production Board's inventory limitation order L-219 were reminded today by the merchants division of the Chamber of Commerce that those whose inventory year began December 1, must file reports to WPB in Washington on or before March 25.

All merchants who are subject to inventory limitation and not thoroughly familiar with their duties under L-219 were urged by T. Johnson Ward, deputy regional director of WPB in charge of priorities, to obtain from the Pittsburgh office of the WPB in the Fulton building a copy of the explanatory pamphlet "Limitation of Inventory. Why? How? Who? When?"

The order applies to virtually all merchants whose mercantile inventory of consumer goods on the last day of any complete quarter of the taxable year after November 30, 1942, amounts to \$50,000 or more at cost value, and whose net sales of consumer goods for the 12 months ending on the last day of the same quarter amount to \$200,000 or more.

## Church League 3-Game Series Begins Tonight

St. Vitus And Epworths Primed For Title Skirmish On Y. Court At 8

### EPWORTH QUINT FAVORED TO WIN

Basketball will bow out of the local picture this week with the annual New Castle Church league championship series furnishing the framework.

The first of a three-game series between the St. Vitus quint, first half champ, and the Epworths, second half titlists, will be played to-night at 8 o'clock on the Y. M. C. A. floor.

#### Stopped By Epworths

After brushing aside everything in their path during the first half, the Saints saw their ranks thinned by Uncle Sam. Even at that, the St. Vitus courtiers threatened to make a clean sweep as they moved into the last round needing a triumph.

The Epworths, however, spattered the Saints, 58-33, thus finishing in a tie.

In the play-off for the second half crown, the Epworths proved too tallent in ringing up a 59-38 verdict, thus setting up the three game series.

Bolstered by the addition of Fred Wimer, New Castle high star, the Epworths, who can boast of two other court magicians in Jimmy Dart and Zeke Wauno, are heavily favored to grab the diadem.

Fast, rangy and packing unlimited talent, the Epworths today represent one of the smoothest working units in the city.

St. Vitus, a solid club when the dribbling sport started, misses the wizardry of Sammy Calazza, the steady play of "Lindy" Lauro, the general all-around ability of Nickie Gennock, only to mention a few lads now serving in the armed forces.

#### Calazza Classy

In Joey Calazza, the Saints have as classy a shotmaker as any team in the circuit. The remainder of the lineup includes Vic Ross, DeLillo, Congini and Sammy Bullano, a leading cage figure here for years, still is one of the best.

Lauro, who has stepped in to fill the shoes left vacant by his brother, and "Rags" Gennock, of the U. S. Coast Guard and home on furlough, will see action.

### St. Mary's Five Defeats Y. Quint

M. Cannon and Eubanks led the way as the St. Mary's "Big Five" defeated the Y. Five, 55-48, Saturday night on Catholic Center floor.

B. Froe, with 19 points, featured for the losers.

The lineup:

### Spring Training Circus Starts For Nine Teams

Traditional Hoopla Missing As Big Leaguers Hustle To Frigid Camps Today

#### PIRATE TO BEGIN GRIND THURSDAY

By LAWTON CARVER (U. S. Sports Editor)

NEW YORK, March 15.—A spring training campaign unlike anything ever experienced by ball players in modern times will begin this week in the east and mid-west.

This is to be the beginning of baseball streamlined and revamped to fit into the war program eliminating unnecessary travel and much of the other frills that in the past made the spring training circus a thing traditional and fraught with hoopla.

The ball clubs will be missed in their old haunts down south and in the far west, and the players will miss their work and lounging in the semi-tropics, but their conditioning will not be vitally affected and they will be all even when the season starts.

#### Many Report Today

Nine of the 16 major league clubs have called for full squads to report today, when the vanguard will arrive at the remaining seven camps. With that the grind will be on for the beginning of another season that may go all the way or be interrupted by mid-summer.

Training sites and dates of arrival for full squads follow:

#### American League

Cleveland, Purdue University, today; Detroit, Evansville Ind., today; St. Louis, Cape Girardeau, Mo., today; Washington College Park, Md., today; Chicago, French Lick, Ind., March 20; New York, Asbury Park, N. J., March 20; Boston, Medford, Mass., March 22; Philadelphia, Wilmington, Del., March 24.

#### National League

St. Louis, Cairo, Ill., today; Brooklyn, Bear Mountain, N. Y., today; Cincinnati, Bloomington, Ind., today; New York, Lakewood, N. J., today; Philadelphia, Hershey, Pa., today; Pittsburgh, Muncie, Ind., March 18; Chicago, French Lick, Ind., March 22; Boston, Waltham, Mass., March 25.

#### Many Stars Absent

Missing from the scene as the athletes begin walking up there to take as they shrug files or limber up their arms will be such standouts as Joe DiMaggio and Ted Williams, standout hitters of the American League; Johnny Beazley, Terry Moore and Enos Slaughter, who pitched and batted the Cards to last season's world series triumph over the Yankees; Pee-wee Reese and Pete Reiser, main springs of the Dodgers; Phil Rizzuto, Red Ruffing, Ted Lyons and scores of others who have been taken out of baseball by the war.

The total of absentees is close to 250 from the majors along, including many, such as Bob Feller and Hank Greenberg, who went in earlier and thus are missing their second season.

While the situation thus admittedly is bad due to the loss of so many standouts who contributed to record performances and much of the color to the game, the major leaguers believe they are about to enter one of their greatest seasons.

Of paramount importance is the fact that the war has served as a great leveler by hitting hardest the clubs with the best players. The loss of such men as DiMaggio, Williams, Moore, Slaughter and others by the stronger teams has pulled them back a little closer to the weaker outfits and a mad scramble is in prospect for both leagues.

#### Predicting Tough

The Cardinals are certain to get a tough fight from the Dodgers, the Cubs and the Reds, with the other clubs first division possibilities in the National. The Yankees will have their hands full to repeat in the American with Cleveland and St. Louis likely to be hot contenders and with Detroit likely to be well up.

However, the most astute and boldest of predictors will admit that trying to name the probable winners now's more of a gamble than ever—and most will wait awhile to get their choices down, pending a further line on many players yet to be called to the services and left on their farms and defense jobs.

**GOLF ADVISORY BOARD WILL MEET**

Chairman William T. Saul of the advisory committee of the Sylvan Heights golf course, which is owned and operated by the city, has called a meeting of the advisory committee for Wednesday evening at 8 o'clock in the club house, when plans for the coming season will be discussed.

#### MEAN TRICK

Jim Reynolds, Auburn fullback, from LaGrange, Ga., and scored two touchdowns on the unit of his native state.

**BASEBALL'S FIRST**

BEAR MOUNTAIN, N. Y.—Twenty-one members of the Brooklyn Dodgers today were on hand for the initial workout.

"Muscles" Medwick, Newt Kimball, Billy Hermann and Angie Galan were among those present for the opening session.

**EVANSVILLE**, Ind.—Evansville today welcomed the Detroit Tigers. The Tigers are not expected to get down to rigorous work for another day or two.

**CAIRO**, Ill.—World champion St. Louis Cardinals went to work today in Cairo with visions of another title before them in spite of the inroads the war has made on their personnel. A few miles away at Cape Girardeau, Mo., Manager Luke Sewell brought the St. Louis Browns to inaugurate their spring program.

**LAFAYETTE**, Ind.—The Cleveland Indians, minus the great Bob Feller and several other mainstays of 1942, set up camp today in Lafayette. They will use many of the training facilities of Purdue university.

## Chicago-Montreal Stymied In Hockey

Hawks Must Whip Detroit To  
Remain In Stanley Cup  
Playoff Series

(International News Service)  
The race for fourth place in the National League hockey standings, which carries with it a berth in the Stanley Cup playoffs, was neck-and-neck today between the Chicago Black Hawks and Montreal Canadiens.

Chicago lead over the Canadiens was cut by a single point last night by a 7-5 setback at the hands of the last-place Rangers. The defeat makes it necessary for the Hawks to win their final game of the season in Detroit Tuesday night against the champion Red Wings to clinch the playoff spot. And Chicago hasn't won a game in Detroit since March 17, 1940.

### Canadiens Tie Boston

The Canadiens tied Boston last night, 4-4, and their final game is with the Rangers at Montreal and the Rangers haven't won a game at Montreal all season.

The Toronto Maple Leafs clinched third place in the final standings and a berth in the playoffs last night by defeating the Red Wings, 5-3, at Detroit. They will go into the playoffs starting next week against Detroit, while Boston will start the playoffs against winner of Chicago-Montreal race.

## Phillies Shove Off For Hershey Camp

Pennsylvanians Handicapped  
By One Of Smallest  
Squads In Majors

(International News Service)

PHILADELPHIA, March 15.—The Phillies shoved off for their Hershey Pa., training camp today, handicapped by one of the smallest squads in major league history. If all the players who have signed or agreed upon terms check in, the club will have 17 men—five of them untried rookies.

Manager Bucky Harris reported he planned to give the boys a light workout this afternoon, if the condition of the playing field permits. Regular morning and afternoon drills will begin tomorrow.

Meanwhile, Bill Cox, the Phillies new owner who expects to arrive at the training site later in the week awaited word from Judge Landis on the club's appeal of the trade of Nick Epper to the Yankees for Pitcher Allen Gettel and First Baseman Ed Levy. Gettel has announced that he prefers to stay on his farm, while Levy, last seen in Florida, is said to have stated that he is going into the Army.

## SPORT CAPSULES

### LOT OF TEAMS

NEW YORK.—The 1943 national semi-pro baseball guide predicts that 75,000 teams will start play on America's sandlots May 2. The various sandlot teams will be organized into a national association, with each league champion to be awarded a trophy.

### BASEBALL TABOO

SARASOTA, Fla.—Paul Waner's son is a basketball and football star at Sarasota high school, but doesn't go in for his baseball-playing father's game.

### THIRD BASE POWER

Washington had the poorest fielding team in the American League last year but Repass and Pofahl, as long as they were in there, led all the circuit's third basemen.

### OFFICERS' SPORT

Polo is still a big sport at Pinehurst, but the participants are Army officers now.

### TRAVEL A LOT

PORTSMOUTH, Va.—Frank Lawrence, vice president of the Piedmont League and owner of the Portsmouth Cubs, reports that Piedmont teams travelled more than 25,000 miles last season.

### THAT'S RIGHT

ST. PETERSBURG, Fla.—Men set too old for the armed forces; so old, in fact, few defense plants would hire them, but these men never get too old for softball.

### HONORARY REFEREE

AUSTIN, Tex.—John Jacobs, coach of the University of Oklahoma track team for the last 21 years, will be honorary referee at the 1943 Texas Relays.

### SAYS HE'S THRU

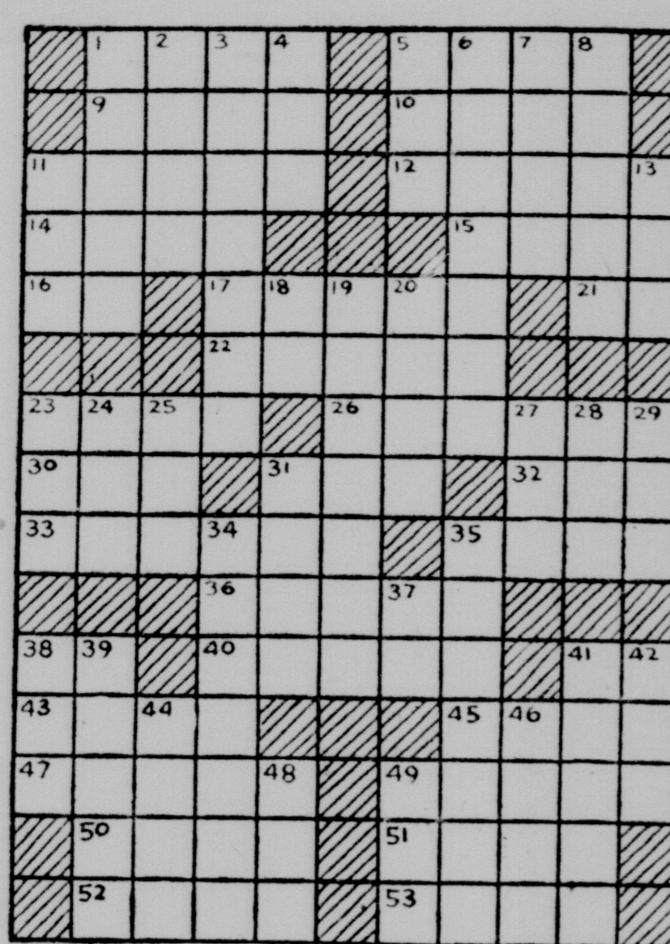

READING, Pa.—Gene Venzke, the world's first 410 miler, says he has hung up his spiked shoes. Gene will be 35 on June 27 and is making guns in a war plant here.

## Fear Stalemate In Wage Parley

Today's Conferences May Determine Possibility Of Mine Agreement

### GOVERNMENT MAY BE FORCED TO ACT

(International News Service) NEW YORK, March 15.—An early showdown—probably a stalemate—was feared today as wage negotiations between the United Mine Workers of America and bituminous coal mine operators continued here today.

Union spokesmen whose demand for a flat \$2 a day wage increase was turned down with an equally flat "No" from the mine workers and operators said that today's conferences probably would determine whether there was any hope of reaching an agreement. Union spokesmen declared frankly that further negotiations would be futile if the operators cling to their original position.

#### U. S. May Intervene

It was considered likely that unless the negotiations show progress by the end of the week, the federal government will intervene.

Meanwhile speculation arose over whether operators of the North and South might get together for joint conferences with the union. This was brought about by the assertion of Edward R. Burke, president of the southern association, that the southern operators would not seek to reopen the question of the southern wage differential in the current negotiations.

It is believed that this statement may make possible the return of the southern operators to the Appalachian conference, especially

since the captive mines, unionized in 1941, and located for the most part in the south, are represented for the first time with the northern mine operators. The southern producers succeeded from the Appalachian group two years ago.

#### May Refuse To Work

Unless some agreement is arrived at, it is feared that the miners may refuse to do down into the pits when the present contract expires April 1. Although John L. Lewis president of the UMW has been silent on the subject of a strike, other union spokesmen have openly threatened that the men would refuse to work despite the pledge of labor organizations not to strike for the duration of the war.

Justification for the \$2 wage increase demand was expressed on the basis of an elaborate union analysis of the relation between coal costs, which admittedly will be increased if the operators meet the wage demands, and the selling price of manufactured goods.

According to the analysis, even if the mine price of coal is increased from the present average of \$2.33 per ton up to \$3 per ton, the general increase in selling prices would be only 8 mills on the dollar, or .08 per cent.

This is in direct contradiction of the operator's estimate that the wage demands would cost them approximately \$750,000,000 per year. The union's analysis places the cost at \$240,000,000 yearly, or less than one-third of the amount estimated by the operators.

### News And Views From Pennsylvania Capital

(International News Service)

HARRISBURG, March 15.—The enactment of sales and amusement taxes to raise approximately \$20,000,000 for teachers' salary increases would cut Governor Martin's proposed \$41,600,000 tax reduction program just about in half. While a general sales tax would hit the pocketbooks of everyone, the legislature has for consideration the governor's recommendation to eliminate four levies which do not affect a large part of the state's population. He suggested the abolition of the mercantile tax, which nets the state about \$8,000,000 annually, and the taxes on bank shares, corporate loans and personal property, which raise about \$33,600,000 a year.

The last general sales tax was levied in 1932 to raise funds to launch the first state-supervised relief program. A one per cent tax was in effect for six months and more than \$10,000,000 was collected. A four per cent amusement tax was imposed in 1933 and during the two years it was in effect approximately \$7,750,790 was raised. At the time fiscal officers estimated that an amusement tax would only net about \$6,000,000 a biennium.

The controversial Homsher-Wilson child labor bill may soon come to a final Senate vote after being in position for action for more than a month. Aimed at permitting local school boards to switch school terms to make pupils available for farm and domestic work assignments, the measure has been so amended that not much of the original proposal remains. Latest amendment removes a provision which would have authorized additional pay for teachers who conducted classes during the revamped school terms. Objections to the broad wording of the bill has forced its sponsors to amend many sections and to use precise words and phrases to avoid later complications.

The Department of State has contributed more than 300,000 pounds of copper and lead scrap to munition manufacturers under an act approved during the 1942 special session. The metal was in the form of electrolytic plates from which

supreme and superior court reports were printed in book form over a period of 50 years. The plates were discarded in 1931 but the law bound the secretary of the commonwealth to keep them. They were stored in a 3,830 wooden boxes in the sub-basement of the main capitol building. Scrap collection on Capitol hill has been supervised by the Department of property and supplies, but efforts have declined significantly since the first flush of enthusiasm subsided. Outside the North office building, a lot of scrap metal has remained half covered with debris for more than four years. It apparently was left there by the company that constructed the \$5,000,000 finance building.

Objections to the broad wording of the bill has forced its sponsors to amend many sections and to use precise words and phrases to avoid later complications.

The controversial Homsher-Wilson child labor bill may soon come to a final Senate vote after being in position for action for more than a month. Aimed at permitting local school boards to switch school terms to make pupils available for farm and domestic work assignments, the measure has been so amended that not much of the original proposal remains. Latest amendment removes a provision which would have authorized additional pay for teachers who conducted classes during the revamped school terms. Objections to the broad wording of the bill has forced its sponsors to amend many sections and to use precise words and phrases to avoid later complications.
